

## Quickcharge 7.0 – New and Improved Features

### NEXT GENERATION USER INTERFACE

Quickcharge features an intuitive user interface designed to be both user-friendly and visually appealing. A clean, modern look with bright colors combines with enhanced navigation to create an unparalleled user experience.

The new navigation menu is ultra user-friendly, and can be collapsed to maximize workspace. Navigation can also be streamlined with the ability to assign unique home pages for each user profile.

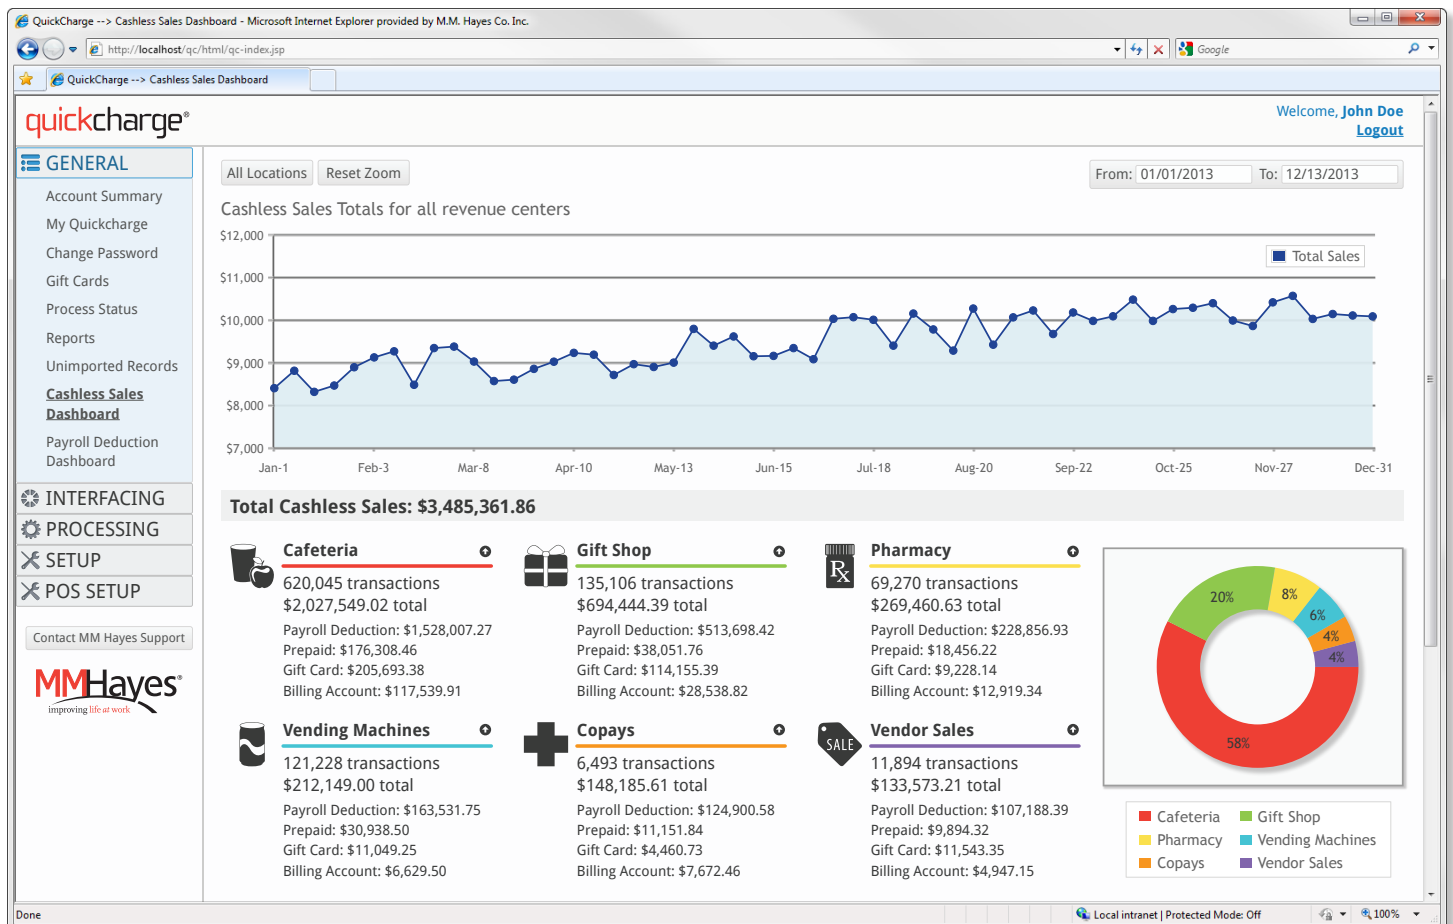

### MANAGER DASHBOARDS

Quickcharge version 7 provides two new dashboards that put important information at your fingertips, allowing you to monitor sales and trends at a glance. With these dashboards you can:

- Take full advantage of real-time data on cashless sales and payroll deduction
- Easily identify trends with graphs that visualize sales
- Drill down to an individual revenue center or a single day for a more detailed view

### New Features at a Glance

- Next generation UI
- Manager dashboards
- Gift card functionality
- POS Anywhere replaces PC Entry
- Quickcharge POS, a full-featured point of sale solution for food service and retail venues
- Eliminates Java security warnings
- Real-time revenue center reporting

# Quickcharge 7.0 – New and Improved Features
